

Whether you need guidance, or support for your local and statewide assessment and accountability systems, training for educators to encourage data-driven decisions, or a design of innovative and evidence-based educational programs, Alpine provides tailored solutions to fit your needs. We deeply care and are committed to student and educator success. Alpine's wide-ranging experience allows our team to provide custom solutions and innovative ideas to the ever-changing education environment.

## HOW WE CAN HELP

Alpine's experience and expertise allows our Psychometricians, Test Development Professionals, and Program Managers to support school systems and educators in a variety of ways including:

- Professional development and meeting facilitation
- Assessment consultation, design, and development
- Independent review of existing programs
- Research design and implementation
- Data management and analysis

## WHO WE ARE

Alpine strives to provide the best-possible solution to our clients and their stakeholders, working with integrity as well as honest and clear communication.

### Knowledgeable:

20% of our staff are Ph.D.-level professionals, and our training team includes National Board-Certified teachers.

### Trusted:

Our staff have been invited to serve in advisory roles with the U.S. Department of Education, state departments of education, state boards and non-profit advocacy organizations.

### Independent:

We do not sell curriculum materials or assessments, so our staff are unbiased and able to focus on industry standards and specific and unique client needs.

### Invested:

As a 100% employee-owned company, our staff members are literally invested in the success of our work.

## HOW WE'RE DIFFERENT

At Alpine, we pride ourselves in meeting clients' specific needs and working closely with clients as part of their team:

- Small client teams with a consistent point of contact
- Commitment and attention to regular and detailed communication with stakeholders
- Working virtually since 2006 and well-equipped to guide the recent shifts to on-line environments
- Viewed as client partners and have created long-standing relationships with many organizations
