Webinar

- 2020 challenges & goals
- Three client cases
 - different workshop types
 - different client cultures
 - challenges, strategies, and outcomes
- Other virtual facilitation tips
- Q&A
- How to learn more

Challenges and Goals

VALIDITY
Fair, Reliable, Secure

The 2020 Challenges

- Transition from in-person to online
 - 2020 presented new challenges for everyone
 - Create new strategies
- Meet the needs of clients
 - Differing client cultures
 - Varying challenges
 - Stress to existing programs
- Adapt while maintaining quality and a consistent product/service

The Goals

- Keep our clients moving forward despite 2020
 - Maintenance efforts
 - Product quality
 - SME engagement
- Develop tailored facilitation approaches that align to organizational cultures
- People over Process

CASE 1 – the “traditional” client

VALIDITY
Fair, Reliable, Secure

Case 1 – Culture Characteristics

- Established and experienced client with few exams maintained yearly
- Small returning committee with highly experienced SMEs
 - Take pride in their work
 - Committed to the organization

Case 1 – Client Challenges

- Client concerned about quality and SME productivity
- Few SMEs are comfortable with tech/virtual environments
- SMEs depend on each other to write items together
- New committee members joining

Case 1 – Strategies

Before Workshop

- Planned with client
- Held Kick-off meeting to relieve worries, answer questions, and welcome new committee members
- Invited veteran members to describe experiences in test development and benefits of working on committee

During Workshop

- Paired veteran and new SMEs together to draft and/or revise items
- Switched on and off between item writing and review during workshop
- Celebrated small wins to maintain engagement

Outcomes/Alpine's takeaways

- No drop in productivity (slight increase)
- Veteran SMEs transferred knowledge gained
- New SMEs were supported and felt accomplished
- Client was relieved with no interruption in continuity

CASE 2 – the “unpredictable” client

VALIDITY
Fair, Reliable, Secure

Case 2 – Culture Characteristics

- Rapidly growing organization
- Value efficiency
- Wide interest to participate

Case 2 – Challenges

- Number of SMEs invited far exceeds recommendations/needs (virtual)
- Client not fully aware of challenges created when volume of participants increases
- SMEs have differing agendas for involvement

Case 2 – Strategies: Virtual Job Task Analysis (JTA)

- Strategically split SMEs in two groups
- Drafted initial documents with Group A
- Reviewed/revised initial documents with Group B and start additional documents
- Reviewed/revised additional documents with Group A
- Prompts to reduce duplication of work

Case 2 – Strategies: Virtual JTA

- Option 1 (standard):
 - Joint, complete weighting activity for final consensus
- Option 2 (modified):
 - Joint weighting activity training and weight submission, break:
 - Group A debrief and makes final weight decisions
 - Group B debrief and makes final weight decisions
 - Two weight recommendations made to stakeholder for final decision

Outcomes/Alpine's takeaways

- Completed on time
- Employed equal SME representation
- Accommodated varying schedules and time zones
- Duplicated some work as Group A would review B's work, make changes, and vice versa

CASE 3 – the “tried and true” client

VALIDITY
Fair, Reliable, Secure

Case 3 – Culture Characteristics

- Strong commitment
- Positive
- Established trust
- Highly flexible (stakeholder and SMEs)

Case 3 – Challenges

- Balancing SME work schedules with project needs
 - International time zones
 - Multi-lingual
- Products and platforms used across different industries
- New stakeholder needing guidance

Case 3 – Strategies: Asynchronous Item Development Workshop (IDW)

Case 1 IDW – collaborative and live // **Case 3 IDW** – offline (asynchronous)

- Provided small assignments with clear deadlines
- Held check-in calls at varying times for writing support
 - Used as teaching moments, calibration
 - Provided specific feedback
 - Suggestions, samples, asked clarifying questions
- Provided other support
 - Email, online collaborative tools, etc

Outcomes/Alpine's Takeaways

- Completed on time
- Accommodated varying schedules and time zones
- Product quality did not suffer

VIRTUAL IDW CONTINUUM OF OFFERINGS

VALIDITY

**Option 1: Client
DIY/TD Advises**

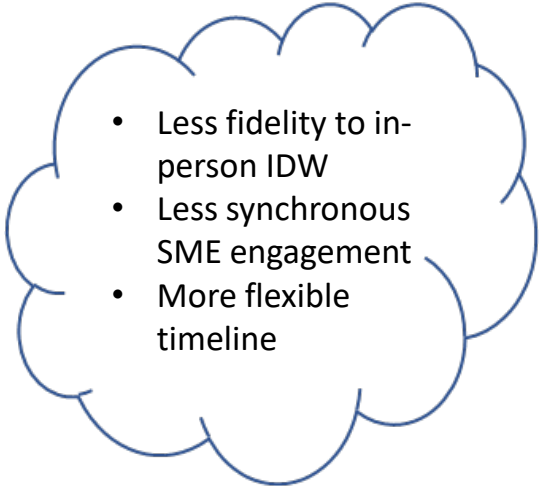

**Option 2:
Independent
Submissions and
Reviews**

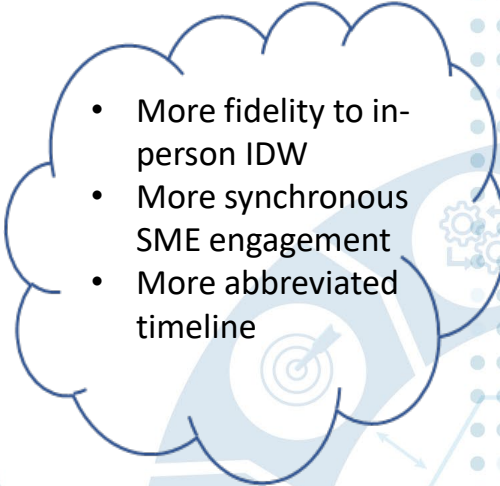

**Option 3:
Independent SME
Writing/Group
Reviews**

**Option 4: "Partially-
engaged" Writing/
Group Reviews**

**Option 5: "Self-
contained" Daily
IDWs**

**Option 6: "Self-
contained" Daily IDWs**

- 
- A cloud-shaped callout box with a blue outline, containing a bulleted list of three items. The background of the slide features a faint, stylized graphic of a person in a blue suit with a target on their chest, and a grid of blue dots.
- Less fidelity to in-person IDW
 - Less synchronous SME engagement
 - More flexible timeline

- 
- A cloud-shaped callout box with a blue outline, containing a bulleted list of three items. The background of the slide features a faint, stylized graphic of a person in a blue suit with a target on their chest, and a grid of blue dots.
- More fidelity to in-person IDW
 - More synchronous SME engagement
 - More abbreviated timeline

OTHER VIRTUAL STRATEGIES

VALIDITY
Fair, Reliable, Secure

Tips to Transition from In-person to Virtual

- Practice flexibility
- Ask instead of assume – clients have varying levels of preparedness
- Frontload information for client to set expectations
- Adapt tools/introduce new tools for virtual environments

Facilitation Tools for Engagement

- Community – how do we continue to build it and engage SMEs?

- Unique image (conversation starter)
- Google Jam Board (collaborative workspace)
- Mentimeter.com (real-time ice breakers)

November 2020 & February 2021

Set background Clear frame

Scan the QR code and provide up to two answers: What was the model of your first car?

Mentimeter

maybe just a general navigation/how-to for the newbies on ExamStudio - it sometimes takes me a while to navigate to items and track them as they bounce back and forth

I agree that a monthly Zoom chat just to brainstorm/workshop would be helpful

Monthly chat and brainstorm for items and some specific case studies.

is there a way to organize the collaboration site resources? I always have trouble finding things on it

possible to have division digital workshop for brainstorming during the homework assignments? Like a forum, not a webinar, so it's not time sensitive.
