

SUPPORTING EDUCATION

It has been a tough year for our communities and navigating the ever-changing education environment that teachers and students face is harder than ever. Allow us to work closely with your staff, administrators, and educators to provide innovative program design or assessment support and training for educators. We are here to help!

READY TO SUPPORT YOU

Our full staff of Psychometricians, Test Development Professionals, and Program Managers are ready to support you, your staff, and educators throughout your state and local communities by providing relevant and up to date support with:

- Professional development & assessment literacy training
- Assessment consultation and development
- Independent reviews & evaluations
- Research services
- Data management and analysis

BECOMING A TRUSTED PART OF YOUR TEAM

We're prepared to "get into the trenches" with you; 20% of our staff are Ph.D.- level professionals who are trusted advisors to the U.S. Department of Education, state departments of education, state boards and non-profit advocacy organizations. In addition, our team includes National Board-Certified teachers who provide insights unique to those who have served in classrooms.

WHY CHOOSE ALPINE?

It is easy to say, "we are different", but we don't take those words lightly:

- As a 100% employee-owned company, we are literally invested in your success.
- We do not sell curriculum materials or assessments; our approach is independent and unbiased.
- Our teams have worked virtually since 2006 and are well-equipped to navigate the rapid shifts to online learning environments.
- As your trusted partner, you'll receive a dedicated client team with a consistent point of contact, and a commitment to regular and detailed communication with you.
